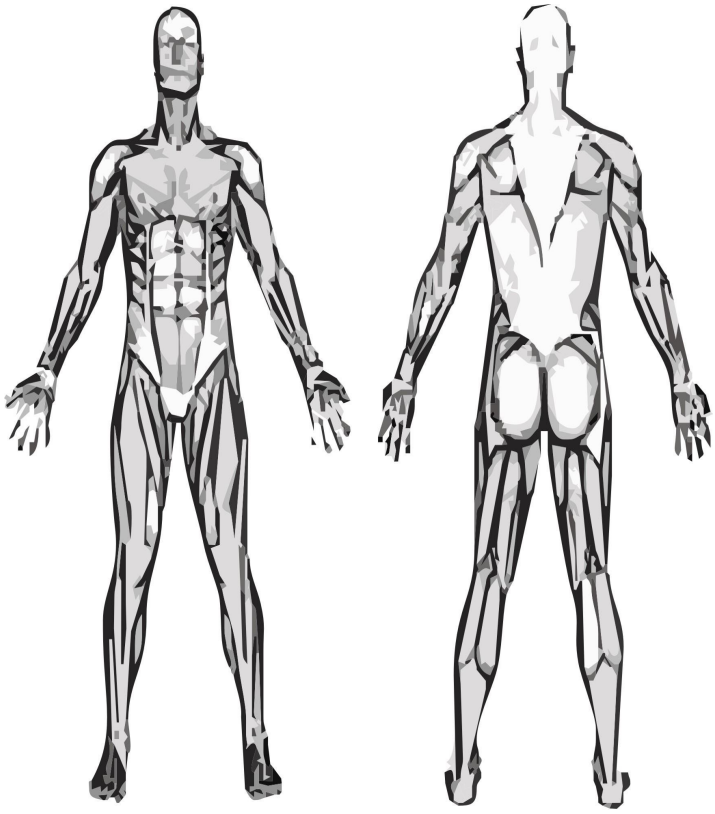
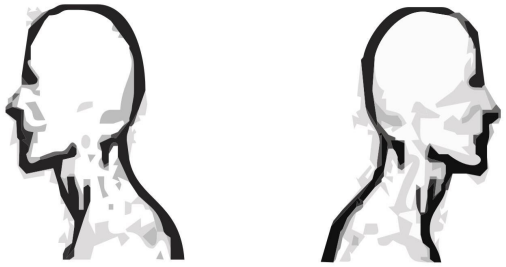
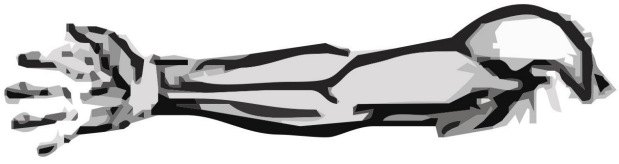
Please use the following letters to indicate TYPE and LOCATION of the symptoms you currently are experiencing.

A=Ache **O**=Other
B=Burning **P**=Pins & Needles
N=Numbness **S**=Stabbing







Medical Consent to Care

A patient coming to the doctor gives him/her permission and authority to care for them in accordance with appropriate test, diagnosis, and analysis. The clinical procedures performed are usually beneficial and seldom cause any problem. In rare case, underlying physical defects, deformities or pathologies may render the patient susceptible for injury. The doctor, of course, will not provide specific healthcare, if he/she is aware that such care may be contraindicated. It is the responsibility of the patient to make it known or to learn through health care procedures from whatever he/she is suffering from: latent pathological defects, illnesses, or deformities, which would otherwise not come to the attention of the physician. I agree to settle any claim or dispute I may against or with any of these persons or entities, whether related to the prescribed care or otherwise, will be resolved by binding arbitration under the current malpractice terms which can be obtained by written request. I understand that my therapy may include recommendations for the following procedures: **Trigger Point Injections** are a specific type of local injection that your physician can use to treat local areas of muscle pain and spasm. Trigger point injections can help break the cycle of pain in your back and neck and help restore normal muscle function and motion. **SI Injections** are primarily therapeutic injections. These injections eliminate pain temporarily by filling the SI joint with an anesthetic medication that numbs the joint, the ligaments, and joint capsule around the SI joint. **Knee Injections** can be utilized to relieve pain and decrease inflammation to the knee joint. **Hyaluronic Acid (HA)** Joint Fluid Therapy, also called a viscosupplement, is a nonsurgical, nonpharmacological therapy for knee osteoarthritis. HA therapy can help relieve pain, improve mobility and get you back to your normal activities. HA therapy contains highly purified sodium hyaluronate, also known as hyaluronan or hyaluronic acid. Hyaluronan is a natural substance found in joint cartilage and in the fluid that fills the joints, synovial fluid. Hyaluronan acts like a lubricant and shock absorber in synovial fluid of a healthy joint. (***Please notify us if you have an allergy to eggs before receiving this injection)*** **Shoulder Injections** in the shoulder joint are necessary for therapeutic reasons in the course of treatment for shoulder pain. **Hip/IT Band Joint Injections** If this area experiences arthritis, injury or mechanical stress, one may experience hip, buttock, leg or low back pain. A hip joint/bursa injection should be considered for patients with these symptoms. The injection can help relieve the pain, and decreases inflammation and improves range of motion.

Acupuncture Consent to Care

I hereby request and consent to the performance of acupuncture treatments and other procedures within the scope of the practice of acupuncture on me (or on the patient named below, for whom I am legally responsible) by the acupuncturist named below and/or other licensed acupuncturists who now or in the future treat me while employed by, working or associated with or serving as back-up for the acupuncturist named below, including those working at the clinic or office listed below or any other office or clinic, whether signatories to this form or not. I understand that methods of treatment may include, but are not limited to, acupuncture, cupping, electrical stimulation, Tiu-Na (Chinese massage), Chinese herbal medicine, and nutritional counseling. I understand that the herbs may need to be prepared and the teas consumed according to the instructions provided orally and in writing. The herbs may be an unpleasant smell or taste. I will immediately
notify a member of the clinical staff of any unanticipated or unpleasant effects associated with the consumption of the herbs.
I have been informed that acupuncture is a generally safe method of treatment, but that it may have some side effects, including bruising, numbness or tingling near the needling sites that may last a few days, and dizziness or fainting. Bruising is a common side effect of cupping. Unusual risks of acupuncture include spontaneous miscarriage, nerve damage and organ puncture, including lung puncture (pneumothorax). Infection is another possible risk, although the clinic uses sterile disposable needles and maintains a clean and safe environment. Burns and/or scarring are a potential risk of moxibustion and cupping. I understand that while this document describes the major risks of treatment, other side effect and risks may occur. The herbs and nutritional supplements (which are from plant, animal and mineral sources) that have been recommended are traditionally considered safe in the practice of Chinese Medicine, although some may be toxic in large doses. I understand that some herbs may be inappropriate during pregnancy. Some possible side effects of taking herbs are nausea, gas, stomachache, vomiting, headache, diarrhea, rashes, hives, and tingling of the tongue. I will notify a clinical staff member who is caring for me if I am or become pregnant. I do not expect the clinical staff to be able to anticipate and explain all possible risks and complications of treatment, and I wish to rely on the clinical staff to exercise judgment during the course of treatment which the clinical staff thinks at the time, based upon the facts then known is in my best interest. I understand that results are not guaranteed. I understand the clinical and administrative staff may review my patient records and lab reports, but all my records will be kept confidential and will not be released without my written consent. By voluntarily signing below, I show that I have read, or have had read to me, the above consent to treatment, have been told about the risks and benefits of acupuncture and other procedures, and have had an opportunity to ask questions. I intend this consent form to cover the entire course of treatment for my present condition and for any future condition(s) for which I seek treatment.
